### **Core Services Builds Strong Partnership with the YMCA of Metropolitan Los Angeles**

**YMCA's strict selection process of new Oracle service provider highlights Core Services' commitment to their clients.**

**Morristown, NJ April 18th, 2007** – After an extensive evaluation, the YMCA of Metropolitan Los Angeles has officially entered a strategic partnership with Core Services, an Oracle Certified Partner, to receive both Oracle E-Business Suite consulting and hosting services.

The YMCA of Metropolitan Los Angeles invested considerable time and effort selecting their new Oracle partner, explains Keith Inouye, Vice President of Core Services. “The YMCA was looking for a true industry leader in their next hosting provider,” says Inouye. He notes that the company went through an extremely rigorous evaluation cycle that included a dozen YMCA team members as well as their executive committee. Inouye continues, “The YMCA felt Core Services had the right blend of Oracle expertise, flexibility and customer support to provide them a 3-year platform for success.” Ultimately, Inouye concludes that Core Services' national presence also has the ability to support other YMCAs around the United States.

At the heart of this process the YMCA looked for a sustained commitment from their new Oracle ASP with an unfaltering first-class level of service for the entire relationship. “We felt that Core Services had thoroughly addressed the YMCA's interests and that the Core team made outstanding recommendations while proving their strong commitment to our success,” says David Cason, Chief Operating Officer of the YMCA of Metropolitan Los Angeles. Noting Core Services' dedication to their customers, Cason explains his organization is confident with its choice. “Core Services was fully validated through multiple on-site and off-site references checks during our evaluation.”

As a leading non-profit organization in the country, the YMCA touches millions of people around the United States helping build strong kids, strong families and strong communities.

With the addition of the YMCA of Metropolitan Los Angeles, Core Services continues to grow their West Coast operations and clients, proving that Core's Oracle E-Business Suite services are in solid demand.

**About The YMCA of Metropolitan Los Angeles.**

From urban areas to small towns, YMCAs are collectively the nation's largest nonprofit provider of child care and after school programs in nearly 10,000 diverse communities and neighborhoods across the U.S. A place for people to belong, YMCAs have proudly served America's communities for more than 150 years by building healthy spirit, mind and body for all.
